Understanding Primary Professional Liability Insurance

If you (or your business entity/firm) offer and provide professional engineering services to the public, you (or the entity/firm) must hold a Certificate of Authorization (C of A). C of A holders assume professional responsibility for the services provided and are generally required to carry Primary Professional Liability insurance in accordance to PEO regulations.

Primary Professional Liability insurance protects you and your firm against liability or allegations of liability for injury or damages that have resulted from a negligent act, error, or omission that has arisen out of your professional capacity as an engineer. Your coverage insures payment of both compensatory damages and legal costs associated with a claim.

Coverage is afforded on a “claims-made and reported” basis and will respond to claims made during the policy period. This means that the policy in place when a claim is made will be the policy to respond – regardless of when the incident occurred.

Reporting a Claim

Prompt claims notification is very important and should be made within 30 days of receiving a formal notice or statement of claim. Failing to report a claim may result in denial of coverage. Please refrain from making any written or oral statements to the claimant, unless the insurer advises to do so.

If you are unsure, always err on the side of caution and report a claim.

Members receiving notice of a claim or who are aware of a potential claim should contact BMS Group directly at **1-844-294-2717** or **ospe.insurance@bmsgroup.com**

Your Primary Professional Liability insurance also includes the following:

Regulatory Legal Expense

Coverage is provided for legal expenses incurred in your defence against a disciplinary action brought against you by an architectural or engineering provincial licensing body (for instance, Professional Engineers Ontario). In the event of a complaint or investigation, members are provided with superior legal representation and defence protection. Examples of Regulatory Legal Expense claims include complaints alleging professional misconduct, incompetence, or incapacity.

Loss of Earnings

If you are asked to attend a mediation, arbitration, deposition, or trial to assist in the defence of your claim, requiring time off work, you will be reimbursed for your loss of earnings up to \$400/day.

Infringement of Copyright

Participants are covered for claims in connection with an actual or alleged breach of patent, design, trademark, or copyright.

Loss of Documents

If physical documents (for example, plans, forms, etc.) under your care are destroyed, damaged, lost or stolen your policy will respond to provide coverage for damages and/or the costs/expenses required to replace or restore these documents.

Dishonesty of Employees

Provides coverage for claims arising out of financial loss to third parties caused by dishonest fraudulent or criminal acts of your employee(s) (for example, if your employee were to steal money, securities or other property from a client while conducting business).

Occupational Health and Safety Act

Legal expertise incurred with respect to legal proceedings related to this act.

Reputation Protection

Covers expenses incurred for a public relations consultant for the purpose of protecting your reputation in connection with an insured claim.

Joint Venture

Provides coverage for claims made against you (or your firm) for services rendered as a member of a joint venture or consortium arrangement.

How to Apply

Please contact BMS Group to apply for coverage.
